DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I.* Claims 1-7,19-25 and 34-40, drawn to computer network access regulating, classified in class 709, subclass 225.
 - II.* Claims 10-18,26-33 and 41-48, drawn to computer-to-computer session/connection establishing, classified in class 709, subclass 227.
 - III.* Claims 49-59,60-70 and 71-81, drawn to routing data updating, classified in class 709, subclass 242.
2. Inventions *I*, *II* and *III* are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination *I* as claimed does not require the particulars of the subcombination *II* and *III* as claimed because all subcombinations and combination are presented and assumed to be patentable. The omission of specific details of the subcombinations *II* and *III* as presented in *I*, and the subcombination as presented in *II* and *III* is evidence that the patentability of the combination does not rely on the details of the specific subcombinations. The subcombinations

II and *III* have separate utility such as validating/establishing a connection between computers and network routing updating, respectively.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE THIRTY DAYS FROM THE MAILING OF THIS COMMUNICATION. FAILURE TO RESPOND WITHIN THE PERIOD FOR RESPONSE WILL CAUSE THE APPLICATION TO BECOME ABANDONED (35 USC § 133). EXTENSION OF TIME MAY BE OBTAINED UNDER PROVISION OF 37 CFR 1.136(A).
